

Faithful people should consider ways how to form a stable movement for development and human rights in the world. This is certainly more urgent than something else. It is about issues of righteousness, ethics and freedom. We therefore need our own roots in belief, dialogue in our society and willingness to explore the wealth of diversity.

My prayer for ONE / HIS World is a prayer for coexistence among different people and religions in our society and, thus, a prayer for freedom.

It strengthens the individual religious belief and protects everyone from the obsession of power, fundamentalism, fanaticism, terrorism and racism.

The prayer expresses the quest for and the finding of the ONE God and our common responsibility for HIS World.

The Belief in God's justice, his goodness and mercy connects faithful people. This prayer may strengthen the peaceful coexistence of all people.

*Prayer and thoughts: Bundespräses Josef Holtkotte, Kolping Germany,  
Cologne, 2017*

**Prayer** for ONE / HIS World

## Prayer for ONE / HIS World

### **Eternal God,**

your word reaches all nations and people of this world all over again. You are the origin of all being, Father of all people. Your heart is full of compassion, your name is justice. You show us the way to reconciliation and mercy.

When people despise other people,  
we ask you for the rights of all people.  
When people destroy freedom with power,  
we ask you for the strength of your changing love.  
When people wound each other,  
we ask you for healing justice.  
Strengthen all efforts  
that serve a mutual understanding among nations.  
Do not allow us to play an active role  
when hatred and hostility drive people apart.  
Help us to keep peace  
as you have made peace with us

### **Eternal God,**

you embrace us with your love and you make us a present of hope. As nations and people of this earth, we want to live together in peace and safety in your world. Give us your strength, your prudence and your truth.

**Amen**

## Thoughts on the Prayer for ONE / HIS WORLD

### **Every human being is God's creation and has received his dignity.**

Based on this faith, I look upon our society, our coexistence and our solidarity. How do we want to live together in our country, in our society? The acknowledgement of everyone's dignity entails the willingness to engage in dialogue and solidarity and a general openness to others. As faithful people feel at home in ONE WORLD, they are citizens of the world.

With his dignity, everyone stands up against lies and bias, against hatred and misanthropy.

As Kolping community, we make a wide range of contributions in order to allow people to experience that belief is reality and strength, hope and future.

God lives with us, in our world!

Our faith is not only a consent to pre-built religious formulas. Faith is a specific way to see the world. It is the attitude to expect the good in a serious way.
